Elders oppose new landfill site in Nartiang Elaka

From Our Correspondent

JOWAI, Nov 29: Elders of Elaka Nartiang and the Jaintia Students' Movement (JSM) Mynsngat Unit have registered strong opposition to the new landfill site of Jowai Municipal Board situated within an area in Thadmuseum village under Elaka Nartiang in West Jaintia Hills.

SAANS: Programme to prevent deaths due to pneumonia

By Our Reporter

SHILLONG, Nov 29: In a bid to prevent deaths among children across the state, primarily in the age group of 0-5 years, due to pneumonia and diarrhoea, the government on Monday launched the Social Awareness and Actions to Neutralize Pneumonia Successfully (SAANS) programme at Ganesh Das Hospital here.

During the launch programme, Dr. P Manners, Nodal Officer Child Health, highlighted that pneumonia is one of the leading causes of deaths of under-five-years-olds.

It was emphasised that while more than 1 lakh children die from pneumonia in the country, Meghalaya is

and recognise the signs and symptoms of pneumonia, which include shortness of breath, coughing, fever, dehydration and chest congestion.

Checking the respiratory rate which the health workers have been trained in can also determine whether a child is suffering from pneumonia, she said. Diarrhoea causes dehydration in children and for those less than six months of age, the most nutritious meal is the mother's milk.

Early and exclusive breastfeeding ensures that the child receives well-balanced diet for the first six months, she added. Mother's milk should be continued even after six months of age along with other food items until the child is about two years old.
