

## FEEDBACK ACTION TAKEN REPORT 2021-2022

Based on the analysis of the feedback collected from the teaching, students, and alumni, the college has taken certain steps to ensure development and make improvements to serve better such as:

- i. To strengthen the infrastructural facilities, the college has completed the construction of science block or D Block, which will provide many additional classrooms to allow the teachers to take more classes for students. The new Botany Laboratory is in the D Block and the Environmental Science Laboratory is shifted to the old Botany Laboratory.
- ii. To improve the library facilities, the library has been transformed and expanded to accommodate more students, and strengthening of up-to date books as well e-resources. A separate section and area is designated for the post graduate students to facilitate them in their studies and research.
- iii. The chemistry, statistics and environmental science laboratory had undergone renovations to ensure better teaching – learning approach experienced for both teachers and students.
- iv. All classrooms are installed with LCD projectors, to facilitate the teachers and students in teaching and other class activities.
- v. Development of Management Information System phase one i.e Online admissions is completed and the other phase for better administration is still undergoing.
- vi. From time to time, the college also conducts or depute the teaching and non-teaching staff to training programmes/ seminars/refresher courses, etc, to empower them to serve the students better, in both teaching in particular online mode teaching as well as office administration. All teachers have adopted a Blended Mode to ensure accessibility for students to study materials and videos.
- vii. The girls common rooms is shifted to the old environmental science department cum lab and can accommodate more students.
- viii. The construction of new Boys and Girls toilet is also completed.
- ix. The construction of the college auditorium is completed having more seating capacity for conducting programmes.
