

## Department of Zoology Feedback Action Taken Report 2017-Till Date.

The action taken report of the department has been prepared based on "The Student Satisfactory Survey" questionnaire. This survey is related to teaching, learning and evaluation process which is being distributed to students and filled anonymously. The feedback assessments with suggestions will strengthen and help in achieving the vision of the department in particular and the college as a whole. The following are the student's constructive suggestions with reference to teaching, evaluation, etc along with action taken.

Sl.No	Suggestion	Action taken
1.	Handwritten notes given by teachers should be replaced with printed one because sometimes the handwriting is not clear. Writing part for practical should be given with xerox sheet, not with old practical copy as it leads to confusion.	As per suggestion, teachers have handed down printed materials to the students. Printed and standardized practical protocols were given to the students.
2.	Help students to understand the basic of learning through live exploring.	Students were taken for field study to get first-hand experience about what they have learnt in classroom. Students were taken to rivers and streams for water analysis experiments, taken to places for fossil observation and collection.
3.	Teacher-relationship should be made better to enhance the learning experience of the students.	For better interaction between teachers and students each student is assigned his/her mentor by the department. Moreover, in the class room teachers engage in discussion about academic matters as well as matters related to preparation for various entrance examinations and job opportunities creating a caring and closer student- teacher relationship.
4.	Discussion on the performance of assignments.	Assignments submitted by students were discussed with them individually and through comments made on their assignments. Also whenever necessary assignments were asked to be resubmitted after explanations to get a better understanding if they have grasped the topic or not.
5.	To help the students with the assess to the use digital gadgets such as digital library, etc.	Students are enrolled in N-List and links such as z-library, scribd.com, Khan's Academy, etc are given to the students.
6.	Students suggested conducting more seminars to facilitate holistic learning.	Departmental seminars were conducted with varied relevant topics given by the faculty members and some amounts of internal assessment (IA) marks were based on the performance at these seminars. The departmental seminars are attended by all

		Zoology honours students as a means to promote interest and better understanding of the subject along with inculcating in them the habit of questioning. Also students are encouraged to take part in inter-college seminars.
7.	Students had suggested more opportunities to showcase their different talents.	Zoonic Circle, the departmental club organised Fresher's -cum- Farewell get-togethers where students get to mainly showcase their singing and dancing talents. Student members are also given opportunities to host these events, which boosts their confidence.
