Sohra by bus and arrived at Mawbeh at 9.30, and after light refreshment we visited the Garden of Caves, located at Laitmawsiang near Sohra, the historical places which are unique and awesome, rare to find in other parts of the world.

After visiting some places, we had lunch at 2.00pm and returning home by the same route. The students enjoyed and learned a lot from the trip. We witnessed the beauty of nature and strongly convinced that things are not man made not even accidentally existed nor is existed by per chance but behind all things there is one who designed them.
