

Field Trip to Nartiang

On 12 of May 2023, 80 honours philosophy students of 2nd and 4th semester with four faculty members went for a trip to visit Nartiang situated in Jaintia Hills. The objective of the field trip was to acquaint the students from other parts of the state and also different parts of North Eastern States about the rich cultural heritage of the region.

We started the trip from the college at 9.30am and reached Nartiang at 11.00am. We proceed to monoliths to visit the monolith park which is the geological feature that constitutes a single massive stone or rock. There in the park we had our lunch and took photograph. We also visited the Nartiang Durga Temple located just a kilometer away from the monolith park. After having spent a good amount of time there , we returned home at 4.00pm.
