SENSITIZATION PROGRAMME ON CLIMATE CHANGE 2017

An Awareness and sensitization programme on “Climate Change” was organized by the NSS Unit of the college in collaboration with North East India Committee on Relief and Development (NEICORD), Shillong. This programme was held on the 2nd June 2017 at the College Conference Hall. Shri B. Okukum, programme officer from NEICORD and Shri Balawan Mawrie from the Environmental Deptt. Shillong College were the recourse persons. Around 200 participants attended the programme.

Shillong College Academic Society-World Environment Day 2017:

Shillong College and Shillong College Academic Society celebrated the “World Environment Day 2017” on 05th June 2017 at the Shillong College Campus from 11:30 AM, by organising a popular talk and a show of appreciation programme to the Health and Sanitation Branch, Shillong Municipal Board .On this day Shri P.K. Agrahari, IFS, Planning Officer , Forest Department , Govt. of Meghalaya graced the occasion as Chief Guest and delivered a talk on environment.

WORLD ENVIRONMENT DAY AT THYNROIT VILLAGE 2017

On the 5th June 2017, the NSS Unit in collaboration with Thynroit Presbyterian Secondary School celebrated the World Environment Day at the school premises where students from the villages took part in the painting, drawing competition to create awareness of preserving environment. Prizes winners were awarded certificates. At the end of the one day programme the Dorbar shnong appreciated the NSS Unit of the College for reaching out to their remote village in providing knowledge to the children of the villages through such awareness programme

WORLD ENVIRONMENT DAY AT NONGETNIANG 2017

On the 5th June 2017, the NSS Unit in collaboration with Nongeitniang Presbyterian Secondary School celebrated the World Environment Day at the school premises where students from the villages took part in the painting, drawing competition to create awareness of preserving environment. Prizes winners were awarded certificates. At the end of the one day programme the Dorbar shnong appreciated the NSS Unit of the College for reaching out to their remote village in providing knowledge to the children of the villages through such awareness programmes.

OBSERVATION OF WORLD ENVIRONMENT DAY 2019

The NSS Unit of Shillong College observed the World Environment Day by organising two programmes on the 4th & 6th June 2019 at the adopted villages of the Unit, Smit Village and Nongeitniang Village respectively. The Unit conducted Inter School Competitions on various events like Painting, Drawing, Slogan, Quiz and Debate Competitions for Secondary Schools in and around Smit Village on the 4th June, 2019. 7 Schools participated in this programme which was held at Pletimai Presbyterian Secondary School, Ur-Masi-U-Joh. The programme started with a welcome speech by the Principal of Pletimai Presbyterian Secondary School and followed with a small awareness lecture on the theme of this year's observation "Air Pollution" by the Programme Officer Dr. (Mrs) S. Khyriemmuat who talked about various causes and aspects of air pollution and ways to minimise it. This was followed with the Competitions on various events stated above and prizes were distributed to the winners in different categories by Pf. A. Marbaniang, Programme Officer.

World Environment Day 2019 held on the 4th & 6th June 2019

- i) Tree Plantation in the College premises on 4th June 2019
- ii) Schools and College level competition on 6th June 2019

TREE PLANTATION 2019

National Tree Plantation organized by NSS,NCC And NEHRU YUVA KENDRA SANGATHAN, in Collaboration with Forest and Industries Departments, Govt. of Meghalaya at Jongksha Village on 27th August, 2019. 200 Volunteers of the College Unit took part in which 5000 saplings were planted.

Service at the 15th Senior State Swimming Competition 2019

7th September- Service at the 15th Senior State Swimming Competition. It was indeed a great joy that the Shillong Rovers and Rangers could render their services in the State Swimming Competition held at Crenoline Pool, Shillong. Services included cleaning the environment and surroundings of the pool, assisting in the distribution of prizes and maintaining discipline among the participants and spectators. The services of the Rovers and Rangers were well appreciated by the members of the Meghalaya Swimming Association.

SWACHHATA HI SEVA CAMPAIGN 2019

GREEN CAMPUS DEVELOPMENT COMMITTEE SHILLONG COLLEGE

Swachhata Hi Seva Campaign is a countrywide awareness and mobilization campaign on cleanliness. In 2019, this campaign emphasized on ‘plastic waste awareness and management’ to create a general awareness about the hazards of plastics. As a response this movement, Shillong College conducted a “Waste Plastic Collection Drive”, on the 2nd October 2019 in contribution to the nationwide efforts for a Plastic Free India. This program was organized by the Green Campus Development Committee of the college in collaboration with the Department of Environmental Science and the Department of Political Science.

The program started off with an awareness speech deliberated by the Principal of College, Dr. M. Dey, on the dangers of plastics and the importance of reducing their use in our daily activities. This was followed by the collection of waste plastics from within as well as the

Shillong- 3

areas near the vicinity of the college campus. The plastic waste that was gathered was then collected by the municipal authorities for proper disposal. Teachers, non teaching staffs and students from various departments as well as representatives from the NCC Shillong College Unit and NSS Shillong College Unit enthusiastically participated in the collection drive. A total of 76 participants took part in this program and performed “Shramdaan” for this good cause.

REPORT OF THE OBSERVATION OF WORLD ENVIRONMENT DAY, 2020

Together with the rest of the world, the World Environment Day was observed by the NSS Unit of Shillong College on the 5th June, 2020. This year, due to lockdown restrictions imposed by the government due to Covid 19, the observation was completely done in a different manner. Volunteers were planting tree saplings in their own place of residents under the concept of “My Tree in the Backyard” with the objective to spent some of their times in nurturing and caring for the environment around their backyards which is in tune with this year’s theme “ Time with Nature”. This concept of “My tree in the backyard” also gives the volunteers a sense of responsibility towards protecting their green backyards and not just plant a tree but own a tree. They will nurture and care for the tree they have planted and in due course spent ‘Time with Nature’. Large number of volunteers were taking part in this programme in their respective homes, villages and localities and sent a message across the world that there is no stopping them to create hope for the better future.

On the 12th of March 2021, at 1 pm, the Department of Botany organised a popular talk on 'Nature Conservation'.

Number of teachers who attended the programme = 5

Number of students who attended the programme = 21

The Speaker was Pallabi Chakraborti, a Master degree holder in Botany who changed her career to Wild Life because of her love for animals and birds. She is currently based in Dehradun at the Wildlife Institute of India –Category 2.

The programme began with a welcome speech by Smti. D. Lyngdoh who warmly welcomed the Speaker, the students and faculty members into the programme.

Pallabi divided her speech into two sections. In the first section, the speaker spoke about her six years of 'on the field' experience in the Kaziranga National Park. Her assignment involved documenting the number of animals present in the park. She narrated at length about the resistance encountered with the local community and the militants who had taken shelter in the park. The techniques used in the counting of animals included traditional methods like identifying paw and hoof prints to sophisticated methods using Camera traps and Paw/Hoof Print marking.

Principal, Shillong College, Shillong

Principal
Shillong College
Shillong-3

In the second section Pallabi Chakraborti enlightened the students about the many possible career options in Forestry and Wildlife Sciences available after their Graduation. This section saw a lot of Students' interest and positive response.

The programme ended with a vote of thanks from Smt. M. V. T. Marwein that was then followed by a light refreshment.

Sub: **Permission for Hosting a Popular Talk on the 12th March 2021**

Madam,

On behalf of the Department of Botany, Shillong College, I, Smt. D Kharshandi, HOD of Botany Department seek your approval for organizing and hosting a Popular Talk in the Botany Lab on the 12th March 2021. The Popular talk will be delivered by Miss Pallabi Chakraborty, who is at present working at the Wild Life Institute of India, Category 2 Centre, Dehradun.

Your kind consideration will be much appreciated.

Thanking you,

Pd. vide Ch. No. 996743 dt. 11⁰³/2021

Yours faithfully,

Smt. D Kharshandi *Di 10/12/21*

Report on Activities of Department of Environmental Science, Shillong College and Ek Bharat Shrestha Bharat Club, Shillong College as part of celebrating 50 years of statehood of Meghalaya.

Inter-Department Sit and Draw Competition

An Inter- Department Sit and Draw Competition on the Topic “Effects of Climate Change in Meghalaya” was organized by the Department of Env. Science, Shillong College in collaboration with Ek Bharat Shrestha Bharat Club, Shillong College on the 8th December, 2021 at 10 am in the Environmental Science Laboratory.

All together 14 students from 8 departments participated in the competition (Attendance Sheet attached). Dr S Pandey, Head, Department of Hindi was the judge of the Competition. Three best drawings were awarded prizes. The winners of the competition are:

1st Prize - Bipin Sanasam, Department of Education

2nd Prize - Moon Singh Sawkmie, Department of Mathematics

3rd Prize - Athrv Aaditya Sarmah, Department of Microbiology

Webinar on "Overview of Climate Change in Meghalaya and Adaptation Initiatives"

The Department of Environmental Science in Collaboration of Ek Bharat Shrestha Bharat Club, Shillong College, organized a Webinar on "**Overview of Climate Change in Meghalaya and Adaptation Initiatives**" on the 8th December, 2021 with Dr. M.M. Lynrah, Project Scientist, Meghalaya Climate Change Centre, MBDA, Meghalaya as Resource person. Dr. Lynrah spoke of the reality of climate change and how Meghalaya is being affected and will continue to be impacted in the future. She outlined inter alia, the carbon footprint of Meghalaya, the vulnerability of the state to climate change at the district and block level, the impacts of climate change and the perception of the local communities. It is notable that industries account for the majority of climate change inducing pollution in the state. She then outlined the different climate change adaptation methods that can be applied in the state, and emphasized the importance of increasing carbon sequestration and water resource conservation.

Report on Webinar entitled "Overview of Climate Change in Meghalaya and Adaptation Initiatives"

Organised by the Department of Env. Science, Shillong College in collaboration with Ek Bharat Shrestha Bharat Club, Shillong College.

Resource Person: Dr. Marbakor Mary Lynrah, Project Scientist, Meghalaya Climate Change Centre, MBDA, Shillong.

Date : 8th December

Time: 3:30-4:30 pm

1. Full Session Report

The online Webinar was opened by Dr. B.J. Mawrie, Nodal Officer, EBSB club, Shillong College, who introduced the resource person and outlined the importance of the topic of climate change and its relevance to and impacts on the state of Meghalaya.

Dr. B.J. Mawrie then called upon Dr. E. Kharkongor, Principal, Shillong College, to give the opening address. Dr. Kharkongor thanked Dr. Lynrah for sparing her time to impart her knowledge to participants and the dept. of Environmental Science, for organising the programme. She emphasized the importance of the environment and the need to gain awareness about it, and to transform that awareness into action to better protect the environment for future generations.

Dr. B.J. Mawrie then called upon the resource person, Dr. M.M. Lynrah, to give her presentation.

Dr. Lynrah began her presentation by thanking the organisers before outlining the findings of the IPCC 6th Assessment report that climate change is a reality that has far reaching impacts. She also gave a background of environmental policy: the Kyoto protocol and subsequent Conferences of Parties wherein the climate change mitigation commitments of every signatory party were detailed.

She described the development of a National Action plan on climate change arrived at in India in the year 2008. The different missions under the NAP are currently in progress. She also outlined Nationally Determined Contribution targets as of October 2015. Among these, it was notable that non-fossil fuel energy sources were to be promoted by 2030. At COP 21, the Prime Minister, Narendra Modi called for the revision of India's INDC goals. An increase in the percentage of non-fossil fuel percentage in India to 50% by 2030.

Dr. Lynrah then spoke about the impacts of climate change in Meghalaya. She highlighted the vulnerability of the state to Meghalaya due to ecological, environmental and socio-economic

Principal
Shillong College
Shillong-3

conditions of the state. Higher temperatures as well as extreme weather events have increased frequency. The Govt. has employed several research endeavours to document climate change in the state, local methods of adaptation with a view of applying them statewide. She also outlined the various impacts of climate change such as flash floods, landslides, soil erosion, siltation, changes in forest types, changes in wildlife habitats and migratory routes, stress on crops and livestock etc.

Dr. Lynrah outlined the aims and objectives of the State Govt. with regard to climate change adaptation in the state. She also listed the different milestones of climate change mitigation taken in the state.

The MCCC has collaborated with reputed institutions on climate modelling and vulnerability assessment. The Govt. also attempts to bring about capacity building and education of the public with regard to climate change. National and International funds are sought for projects in the state.

The NAP on climate change is translated to the state level, and Meghalaya's State Action Plan was approved in 2014 and is comprised of 7 sectors including Sustainable Agriculture, S. Habitat, S. forestry, S. water resources, mining and energy.

Studies have been conducted to gain knowledge about climate change including studies of carbon footprint, identification of vulnerable hotspots in Meghalaya among others. The use of high resolution imagery for climate modelling has shown an increase in temperature at 0.31 degrees C/ year. There has been an increase in temperature at the rate of 1 degree for the past three decades. Erratic nature of Rainfall has also increased. Future projections predict that temperatures will rise by up to 3.5 degrees C. Rainfall is also projected to increase by up to 300mm under the mild scenario with the most increase projected to be felt in the central plateau region. She also highlighted the districts most vulnerable to temperature and rainfall changes. Notably Saipung and Khliehriat are to be extremely impacted by changes in rainfall.

Meghalaya has been assessed with regard to its carbon footprint and has been found to be carbon positive. Most of emissions are from the industrial sector. About 25% of the total area in Meghalaya is vulnerable to climate change. Under RCP 8.5, 70% of forests will become very vulnerable to climate change.

The majority of people surveyed state they have expressed an experience and awareness of impacts of climate change such as hotter days, decrease in water available, increase in extreme weather etc. Respondents highlighted biological changes such as reduction in fruit size, early ripening, increased in pest incidences etc. Traditional knowledge of local communities with regard to climate change have also been recorded.

In terms of Climate Change Vulnerability, as per Vulnerability Index, West Khasi Hills District was found to be the most vulnerable to climate change. At the Block level, Thadlaskein block

Witnessed by the
Principal, Shillong College, Shillong

Principal
Shillong College
Shillong-3

was found to be the most vulnerable block. Major drivers included poverty and lack of education especially in rural areas.

Dr. Lynrah then spoke about who we can adapt to climate change. Responses have been classified into mitigation and adaptation. Developing countries are as yet focusing on development and therefore cannot really engage in mitigation, but can however focus on adaptation. Various adaptation methods such as population control, drought preparation, planting drought resistant crops etc.

Meghalaya needs to reduce emissions and adapt to projected climate change. Climate change adaptation needs to be factored into every sector in state development and governance. Changes in the energy sector and electricity sources are crucial to lowering emissions. Lifestyle changes and self-education are important. She highlighted the importance to plant trees, increase sequestration and save water, an ever declining resource.

The floor was then opened for questions during which Dr. Lynrah answered the various queries of students and attending faculty alike.

Dr. B.J. Mawrie then announced the winners of the Sit and Draw Competition held by the Dept. of Env Science in Collaboration with the EBSB Club, Shillong College, as part of the Celebration of the 50 Years of Statehood of the state of Meghalaya.

Dr. M.B. Lynser, Head, Dept. of Environmental Science, Shillong College, proposed the vote of thanks. She thanked the Principal, Dr. E. Kharkongor, the Vice Principals, Shri K.D. Roy and Shri. B. Syiem, the IQAC Coordinator, Dr. S. Sharma, and the resource person, Dr. M.M. Lynrah. She also thanked Dr. S. Pandey who served as judge for the sit and draw competition, the management for financial support provided and all participants in the webinar.

Dr. B.J. Mawrie then ended the webinar.

REPORT

for

A program organized by the Department of Zoology, Shillong College in collaboration with IQAC, Shillong College on the 15th December, 2021.

Faculties of the Department of Zoology, Shillong college

The Department of Zoology, Shillong College in collaboration with IQAC, Shillong college has organized a one-day programme (online mode) by conducting a popular talk on the topic “Diversity and Conservation of birds in North-East India with special reference to Meghalaya” on 15th December, 2021. This programmed also marks the celebration of the 50th Anniversary of Statehood of Meghalaya (1972-2022). The Speaker for the program was Dr. Jaydev Mandal, Assistant professor, Department of Zoology, M.C college, Barpeta, Assam and Co-founder Assam Bird Monitoring Network (ABMN). Dr. Mandal was a very well know person in the field of ornithology in the state of Assam. He had worked on the conservation of Greater adjutant (an endangered bird’s species) of Assam. He had also involved in conducting various study, giving training, etc. in relation with birds. He is also a man behind the popular Bihu Bird Count which used to held every year in the state of Assam during the Bihu festival. In the programmed, Dr Mandal elaborated on the bird’s diversity of North-East India in general and of the state of Meghalaya in particular. His lecture includes interesting facts of various importance bird’s species and birds’ area found in the state of Meghalaya. He also highlights about the various conservation strategies taken to protect the birds from exploitation. In addition, Dr. Mandal also enlightened the participants about the various birding tips such as how to identify birds and using various repositories to deposit information of the birds identified from a particular area. The program also includes a quiz competition for the students’ participants on various aspects of birds and questions related with the topic. The programmed was highly engaging and informative with a lot of interesting discussions and questions from the participants.

VR. NO. 273

Date: 2nd December, 2021

To,

The Principal
Shillong College
Shillong

Subject: Organizing of popular talk by the Department of Zoology, Shillong College

Respected Madam,

With respect to the subject cited above, I would like inform you that the Department of Zoology, Shillong College is organizing a popular talk on the topic entitled "Diversity and Conservation of birds in North-East India" on the 15th December, 2021 as part of the 50th year's celebration of Meghalaya Statehood. Dr. Jaydev Mandal (Assam Bird Monitoring Network) has consented to be the resource person. In this regards, I request you to kindly grant us a permission to organize the said programme.

The budget estimate is enclosed herewith.

Thanking You.

Pay Rs. 2500/-
Rupees. Two thousand five hundred only
